

# CIEH Level 3 Award in Health and Safety

## Overview

This course provides details of the main concepts of health and safety and promotes the benefits of health and safety. It aims to clarify the roles and responsibilities of individuals, supervisors and management in health and safety whilst providing an understanding of control and improvement strategies available to supervisors.

A supervisor has a legal and moral responsibility to look after the health and safety of employees, but needs to have the knowledge and skill to be able to do this effectively.

This generic training programme provides an opportunity to look more deeply into general health and safety from a supervisory perspective, and successful candidates will be able to help their organisation whatever the size or activity in improving the health and safety culture.

## Course Content

- concept of health & safety
- accidents in the workplace
- ill health in the workplace
