

# CIEH Level 3 Award in Risk Assessment

## Overview

This course is designed for managers, supervisors and others with responsibility for conducting risk assessments and in need of knowledge regarding legal requirements, principles of risk assessment and practical application.

This course aims to assist delegates in contributing to the risk assessment programmes at their workplaces by conducting risk assessments or organising and implement a risk assessment programme where this has not already been started. It is generic in nature and enables the principles to be put in place.

## Course Content

- general introduction to risk assessment
- principles of risk assessment
- legislation
- risk assessment in practice

## Who Should Attend

The Risk Assessment: Principles and Practice programme is designed for anyone with a responsibility to conduct risk assessments. It is particularly useful for managers and supervisors but it will be equally beneficial to individual workers, team leaders, technicians, engineers or any other personnel contributing to the risk assessment process.

## Prerequisites

Recommended understanding and knowledge of risk assessments.

## Duration

10 hours

## Assessment

Course assignments and a final work based assignment

Crescent House  
Keighley Road  
Skipton  
North Yorkshire
